Sources: US Census Bureau, M311K series for Fat and Oils: Production, Consumption and Stocks.

US Census Bureau for exports. NRA estimates for poultry and porcine meals.

Footnotes

A. Production does not include imports and carryover stock

B. Not Reported

1. Mammalian origin. Includes porcine meal.

2. NRA Estimates

3. For 2007, 3-4 months of grease consumption was not reported by US Census. These months were estimated by using monthly averages.

4. Feather meal and animal protein meal consumption are not reported by the census, this data was derived subtracting exports of these products from production of the same products.

5. Includes mammalian MBM and poultry by product meal (HS23011)

6. NRA revised its production estimates and did not estimate porcine meal this year. Hence, protein meal totals are lowered

along with total rendered product production versus last years report
